

Auburn, Cal.
July 24. 1890.

Dear Mr. Watson:

Many thanks for
your very kind note of
the 16th. inst. which is
just received. I regret the
plant did not prove to be
new, but as you say, it is
very much better to have
learned this now than later.

I thank you most kindly
for giving me its name.

Gratefully yours,
Mary E. Pulsifer Ames.
